

"The solution highlights metrics and context that enable Plunket to better manage staff caseloads and delivery performance," says Jason. "It enables them to make sure that crucial child milestones are met in time, and assists staff to more efficiently plan appointments with clients."

Plunket has been working with Stellar on a dashboard for frontline engagement. Stellar has developed a very good-looking and informative solution that has really made a difference to our nurses.

It's the beginning of a long digital journey for Plunket, but with the team at Stellar Consulting devising BI and analytics solutions, the future for New Zealand's children is looking brighter.
